Objective

Versatile Financial Technology professional with 1 year and 1 month of progressive experience across Technical Support, Quality Assurance, and Business Analysis at Traxiontech. Skilled at troubleshooting client issues, testing system functionality, and translating business needs into clear requirements. Seeking to apply a well-rounded understanding of fintech products, from the user's first support ticket to the requirements behind each release, to help a dynamic organization deliver reliable, user-focused solutions.

Work Experience

Traxiontech · Financial Technology

Business Analyst · 3 months (*August, 2026 - October, 2026*)

- Gather and document business and user requirements from stakeholders for fintech products and system enhancements.
- Translate business needs into user stories, process flows, and functional specifications for the development team.
- Analyze existing workflows and system data to identify gaps, pain points, and improvement opportunities.
- Coordinate between business, development, and QA teams to keep deliverables aligned with requirements and timelines.
- Prepare reports, documentation, and presentations to support decision-making.

Quality Assurance · 2 months (*June, 2026 - July, 2026*)

- Executed functional, and user acceptance testing on web and mobile fintech applications.
- Wrote and maintained test cases and test scenarios based on system requirements.
- Identified, documented, and tracked defects through resolution, working closely with developers.
- Verified fixes and validated releases to ensure accuracy and reliability of financial transactions.

Helpdesk Support · 10 months (*October, 2025 - July, 2026*)

- Provided first-line support to clients and internal users, resolving system, account, and transaction-related concerns.
- Troubleshoot application issues, replicated reported problems, and escalated technical bugs to the appropriate teams.
- Logged, monitored, and closed support tickets while meeting response and resolution targets.
- Created knowledge base articles and guides for recurring issues.
- Gradually took on testing and issue-validation tasks in the final 2 months, leading to a transition into Quality Assurance.

Education

Bachelor of Science in Office Administration, *Cum Laude*

Polytechnic University of the Philippines – Parañaque City Campus · 2021 – 2025
